Channel to the Mississippi-Alabama state boundary.

Any individuals retaining any marine species from this closed area will be required to immediately return them to the waters. This precautionary closure is a result of oil sightings in this general area and the potential impacts on Mississippi's coastal marine resources. The continuous monitoring of this situation is to ensure public safety and protection of Mississippi's coastal resources.

Some shrimping areas will close as a result of this action. Call 1-866-WE-TRAWL (1-866-938-7295) for more information.

The Mississippi Department of Marine Resources is dedicated to enhancing, protecting and conserving marine interests of the state by managing all marine life, public trust wetlands, adjacent uplands and waterfront areas to provide for the optimal commercial, recreational, educational and economic uses of these resources consistent with environmental concerns and social changes. Visit the DMR online at www.dmr.ms.gov.
